**QUALITY INTEGRATED
SERVICES, INC. (QIS)**

**INSPECTION AND MANAGEMENT
PERSONNEL FOR THE OIL & GAS
INDUSTRY SINCE 1991**

*“Quality Results in Safety,
Safety Results in Quality”*

QUALITY INTEGRATED SERVICES (QIS) has been a leader in the oil & gas industry for over 25 years, providing inspection and management services to large and small operators. As a **Professional Employer Organization (PEO)**, we provide qualified third-party inspectors and managers, empowering client operators to concentrate on their core business requirements, control costs, and gain staffing flexibility. Additionally, operators see increases in safety, efficiency, and regulatory compliance.

Qur qualified professionals work long or short duration assignments inspecting or managing construction, maintenance, asset integrity, and commissioning projects, large and small:

- Transmission (mainline) pipelines
- Facilities of all kinds
- Gathering pipeline systems
- Distribution pipeline systems
- Distribution mains
- Pipe Mills, Coating Facilities & Fab Shops
- Terminals & Tank Farms

Typical Personnel:

- Construction Managers
- Field Engineers
- Chief and Assistant Chiefs
- API 510 Inspectors (Pressure Vessel)
- API 570 Inspectors (Piping)
- API 653 Inspectors (Tanks)
- API TES Tank Entry Supervisors
- API 1169 Utility/Craft Inspectors
- AWS/API/ASME Certified Welding Inspectors
- NACE Coating and Corrosion Inspectors
- Electrical & Instrumentation Inspectors

As an **Administrative Service Organization (ASO)** and strategic staffing partner, **QIS** offers comprehensive recruitment, employment, payroll, benefits, and human resource management. In coordination with the operator client, we match the best personnel with the right combination of knowledge, skills, and abilities to monitor the successful execution of projects according to applicable codes, regulations, standards, and specifications. Personnel mobilize with the operator's orientation and comprehensive safety training through **QIS's** state-of-the-art learning management system. Background checks, drug and alcohol screenings, certifications, and Operator Qualification verifications are part of the **QIS** on-boarding process.

Continuous monitoring and reporting:

- Customized reports
- Job cost reporting
- Real-time dashboard

- API Source Inspectors (Fixed, Electrical and Rotating Equipment)
- Safety Inspectors
- Environmental Inspectors
- Commissioning Managers
- Civil Inspectors
- Survey Inspector
- Office Managers
- Field Accountants
- Material Clerks
- API General, Internal and Lead Auditors
- NDE Auditors
- DOT Auditors

QIS PROVIDED KEY PERSONNEL ON THESE RECENT PROJECTS:

KERN RIVER GAS TRANSMISSION

Consisting of 717 miles of 36" and 42" pipeline with 10 large compressor stations running from Opal, WY to Bakersfield, CA.

GULFSTREAM NATURAL GAS PROJECT

Consisting of 760 miles of 36" pipeline including 430 miles from Mobile Bay, AL to Tampa Bay, FL - First pipeline of its size to cross the Gulf of Mexico.

EL PASO PIPELINE - RUBY PROJECT

Between Opal, WY, and Milan, OR, providing inspection services and construction management on 680 miles of 42" pipeline and compressor station facilities.

TC ENERGY - GULFCOAST PROJECT

The southern portion of the Keystone XL is a 485 mile, 36" pipeline from Cushing, OK to Nederland, TX, and 6 pump stations with the capacity to move 700,000 BPD.

TRANSCO - ATLANTIC SUNRISE

Project consisting of 186 miles of large diameter pipeline, 12 miles of looping, 2.5 miles of replacement, 2 compressor stations, and station modifications in 5 states.

PHILLIPS 66 - SWEENEY FRAC PROJECT

Providing inspection, commissioning plans and execution management on 250 miles of pipelines, multimillion-barrel storage cavern complex, and facilities creating the 100,000 BPD Sweeny NGL Fractionator One¹ operation.

PHILLIPS 66 - BLUE LINE REVERSAL

Reversing the existing 270 mile propane pipeline from Borger, TX to Wichita, KS, providing purge plans, hydro-test plans, commissioning with hydrocarbon heaters, and project execution management.
